## **Edwards History and Tree Dec 2016**

How long is a generation? Of course that varies with culture from 15-35 years. Male generations are longer usually around 30 years female generations shorter between low and high twenties averaging about 28 years. Another factor is how many children a family has. This varies between 0-16. In pre industrial ages the averages of male and female generations is 15-20 years but in the modern age it averages in the low thirties. So there is no absolute number. Mankind like ourselves have been on Earth about 50,000-200,000 years. If we count 25 years for the primitive ages and 30 years in the modern age (since 1800) that is around 2,000-8,000 generations. The actual count of male generations after the oldest we can name starting at generation 2,000-8,000 is around 25 generations that we have names for our ancestors.

But if mankind doesn't stop the terrorists using nuclear weapons, the present generation may be the last generation of humans on this beautiful planet, which cockroaches and machines will inherit.

When one looks at our family history over the over 2,000-8,000 generations we see that we are all related to almost everyone else. Scientific thought, finding out the actual truth, facts and knowledge, has given us far more than superstition or religion. As Jesus said "The Truth will set you Free." The most import thing we see when looking at our history is that we must be prepared to survive attacks from other humans which still plague our world even now and that we should also train our selves and our children to be Thinking, Loving, Caring, Kind Human beings. After all Humans should be Humane. We need to create a world of peace where everyone can reach their best potential. Those who would do us harm must be suppressed or banished to remote Pacific Island where they can kill each other off. And we can create a force of police robots to deal with those who would violate the peace. We must also keep control of the police robots and not make them totally autonomous lest they become the masters.

**But what was their life like?**

Most of our ancestors came from European stock. But where did they come from? Sure Germany, Scotland, England, Ireland, Netherlands, France etc. But where did they come from? Turns out if you look back a several hundred years earlier they came from tribes. In fact everyone's ancestors came from tribes.

There were many tribes and tribe federations often named after their location or language. Some are: Celts, Huns, Franks, Vandals, Saxons, Visigoths (Goths), Scots (from Northern Ireland) and Picts (from Scotland), Jutes, Germani, Tungri, Cimbri and Teutones. Aduatuci, "Goths" "Vandals" Gepids Rugians, Sciri Burgundians, Alans, Northmen, Norsemen or Vikings. and more.

What these ancestors had in common was: lived in tribes, sometimes they were nomads which were bands of families, who hunted and gathered their food rather than farmed; they roamed in search of resources and some learned to fight and plunder in order to survive. They lived this life from around 20,000 years before present time until they gradually became civilized and unified enough to farm and raise livestock. Then they were absorbed into civilized Europe about 500–1500 before present.

We do not know much because they had no written language. Knowledge was transferred by example and word of mouth including stories told over campfires. It appears that they moved a lot so did not stay in cities. They were fierce fighters against others including the Romans.

So what was daily life like if you lived in that time. Well since there was no electricity or anything modern They slept in temporary shelters or homes made of natural materials and houses thached with straw to weatherproof them against rain and wind.

All cooking was done over an open fire most of the time outside but sometimes in the center of the hut. Clay pots, hollowed out stones and various wraps were used before metal pots were finally created. Everything was made from scratch meaning whatever you could find out in the woods during the day. Much of the time it was feast or famine. Most of the day was used in hunting for food or preparing food, making tools or clothing. Everyone had jobs to do even children. Everything depended on the weather. There were no bathrooms or showers, or tubs. The woods or a designated spot was the bathroom. There was no toilet paper toilet seats. It was squat outside without privacy regardless of the weather. In the winter a clay pot could be pressed into service for inside use.

Fear was a given day and night. There was no scientific knowledge only superstition. No one knew what beasts and monsters roamed the night darkness. There was no medical knowledge, good medicine, doctors, 9-11 or hospitals. No pain killers or antibiotics. If you broke your leg or had a bad cut or sore you died. There were no eye doctors, glasses or trained midwives. Many women died in childbirth. Many children died before age 5. Women and children were often made to do much of the work and women for the most part had no rights.

There was also fear of attack from other savages both day and night. Thousands of good innocent people were butchered to death or made to be slaves.

Clothing was all made by hand from natural materials such as plants, hydes, fur, and wool. The beds were straw mats. And because most people slept on the floor of the hut you shared the living quarters with mice, rats and hundreds of insects, tics, mosquitoes and lice.

Despite all of this struggle and misery there moments of happiness, singing, music and dancing. Would you want to trade with them?

The groups of tribes in Europe had many names but the biggest and longest lasting were the Celts. Contrary to popular legend they were not barbarians as the Roman victors named them.

They had a relatively civilized culture. They had been around for over 1,000 years and longer if you count the pre-Celtic groups. And they lasted in Ireland and Scotland up to the times of the British Empire. They influenced the culture all over Europe and especially in Scotland and Ireland. Their area included Scotland all the way to Asia minor. Although they sacked Rome in 390 they did conquer the Romans. It took the Romans many years to eventually beat them. They ended up influencing Roman culture.

They were civilized at a tribe federation level. Although the individual tribes had skirmishes they pretty much got along. This allowed them to have agriculture and raise livestock. They were some of the best metal workers in history through the Bronze and Iron ages. And they had many skilled craftsmen and traded goods

around the world. This could not be accomplished if they were uncivilized barbarians. Yes the tribes practiced warfare and had to go off and defend themselves or sometimes attack others with their swords and this was as is all warfare barbaric. If you look at history one sad fact of mankind is the constant warfare.

These people lived in round houses made of stone or wood and clay filled walls with roofs thatched with straw. These houses were weather proof against the elements. They usually had a fire pit in the center but when possible cooking was done outside because of the smoke. Their clothing was finely made often with many colors. Clothing was shirts and trousers, tunics, cloaks, robes. They had outer robes and shoes. Warriors sometimes had armor and helmets others chose to go into battle naked. Women wore dresses tunics and wraps, robes with much variation sometimes sandals. Both sexes sometimes wore head pieces and jewelry particularly Torcs which were arm rings.

The tribes looked after the children so if a warrior was killed or a mother died the children were taken care of. Marriage was by agreement and if they chose to do so they could have more than one husband or wife. But the senior wife or husband had more say. Everything was by agreement with the interests of the children paramount. They also had trial marriages which lasted a year and a day called handfasting. They had strict property rules so everyone was treated fairly. Divorce was also by agreement and there property rules for this outcome.

Most of this material is paraphrased from "A Dark History: Celts The History and Legacy of One of The Oldest Cultures in Europe. Author Martin J Dougherty. This is the best book on the Celts I have seen. It also includes many fine illustrations. Mr Dougherty states that the Celts were a hospitable people. Guests were well treated but expected to act with respect.

By the firelight there were songs and music sometimes poems or telling of tales. Mr Dougherty also has an interesting section on Celtic law. He states that Celtic law also required everyone who owned property to give hospitality to anyone who needed it. Subject to a reciprocal agreement. There were laws against crude gestures and satirizing someone or even speaking ill of the dead. Ways were even provided to undo harm caused by a damaging satire. There were laws for compensating victims. In several ways their laws were better than ours today. And all settled without having to pay a high priced attorney.

Celtic music is perhaps best preserved in the older music of Scotland and Ireland. Instruments used were animal horns, sheep ribs played like spoons, drums like the bodhran (pronounced bow-ran), a circular frame drum. Usually made from treated goatskin stretched over a round wooden frame and a crossbrace in the back, the bodhran makes delicious-sounding tones. flutes, pipes (hollow tubes or wood or bone), whistles that resemble recorders and flutes and stringed harps, There were box like stringed instruments all home made. There were also hand crafted reed instruments with and with our a bladder bag (known today as bag pipes) although they took many forms. Of course if one listens to Celtic music there are instruments that have been added in just the last few hundred years such as the fiddle, and concertina (an accordion like instrument usually with six sides and bellows).

Go to You Tube and do a search for Celtic music and you will find many examples.

Our ancestors were emigrants from England, Ireland, or Scotland. They came to the New World for many reasons but mainly because they hoped it would bring them a better life. To come here they often faced life-threatening hardships. First was to give up all that their homes and all that they had known as home. Then they faced an extremely unpleasant voyage on rickety wooden ships lasting from 45 to 140 days. Many died on the way. The living arrangements were miserable and extremely crowded. The "food" consisted of hardtack (a cracker-bread-biscuit), salt meat, peas, and cheese with water. Disease and pirates took their terrible toll as did shipwrecks and storms.

It is believed that Andrew Edwards is his father but this is not proven. In 1830 Andrew had 6 boys and 2 girls. 2 boys under 20 but over 15. Luke supposedly born 1809 in VA. In 1840 now has son Harvy age 29 (1821), Joseph 21 (1829), Thomas Stockwood age 18 married to daughter Nancy age 25 (1825). A Thomas Edwards JR is in the home age 1. Who are his parents. Thomas and Mary too old to have children, so is not

their child. Perhaps Nancy had the child out of wedlock as in 1856 when named in his will was married to a Branch. Some children may have married and stayed in Sumner County. In 1860 Census his widow is living alone in Gibson County with a female in the house age 55 born NC. Mary says born in VA in 1805. Thomas made his will in Gibson County TN will filed July 1856. It is assumed that was deceased by time of will filing. Interred Gibson County TN. Occupation farmer. It is believed that Andrew Edwards born about 1752 is the father of Thomas. Served in the NC line in the Rev. War. At age 81 applied for a pension in 1832 in Carroll County, TN 1834 P-2, Ref. A-1

This requires more research for definite proof. In the 1830 lived in Sumner County, TN and had 6 boys and 2 girls. 2 boys under 20, but over 15. Luke supposedly born 1809 in VA. In 1840 is with family in Gibson County, TN. now has son Harvey age 29 (1821), Joseph 21 (1829) Thomas Stockwood age 18 married to daughter Nancy age 25 (1825) A Thomas Edwards, JR is in the home age 1. Who are his parents? Thomas and Mary too old to have children, so is not their child. Perhaps, Nancy had the child out of wedlock as in 1856 when named in his will was married to a Branch. **109. Amanda Melvina<sup>20</sup> Edwards** (Felix Granvil Grundy<sup>19</sup>, Luke Monroe<sup>18</sup>, Thomas<sup>1</sup>) (Source: (1) her son's statement., (2) Luke Monroe Edwards.FTW, Date of Import: Jun 25, 2001.) born 04 Oct 1883 in Piggott Ark, died 22 Apr 1973 in Piggott Ark. married **(1) Thomas Andrew Arnold** (Source: His son's statment.) 10 N

Amanda married Thomas A Arnold and moved to Zink Ark where he worked in the mine there. Their oldest child was born there. Dad worked hard at many jobs from working in the mines to working in the timber and making pictures. My mother was lonely at times but happy. She loved her children and her husband. Her health was bad and their old family doctor (Dr. Floyd) told my dad he didn't think she was going to live long so he thought that my dad should take her back where she could get near her parents. My father packed up and moved to Clay County Ark. This is where I was born. (Beamon Arnold b 1914) The family bought the Jackson farm two miles west of Piggott Ark. My mother canned most of what we ate. The farm was well stocked with fruit and berries. I can remember when I was very small she canned in 1/2 gallon fruit jars, gallons of peaches and tomatoes. We also kept sheep and other livestock. We had honey bees. Once my brother got too close and a bee crawled into his ear. He was about scared to death but my mother kept calm. She put some ear oil into his ear and the bee backed out without doing any real harm. There was sickness in the family from time to time. The brother next to me died at age 17 months. I remember when I was very young my mother was very sick at different times. The family doctor came out from Piggott. He did his best but things looked dark. I remember the doctor was a good Christian man dedicated to the work the Lord had called him to do. if he had car trouble he came on foot even if it was miles. Thomas and Amanda were members of the Wrights Chapel Methodist Church which was located a mile west of Piggott. The children were brought up Methodist. I must say with all respect to our good honest doctors that the Lord did something special for my mother. After being in very poor health for years, she was healed by the lord at home. I have heard her say in church many times that the Lord healed her body at home. After that she was in much better health. She picked cotton in the fall and enjoyed it. She helped her husband with his sorghum and honey. She lived to be 89 years old. Few women have done any more hard work than her but she enjoyed cooking and canning and making quilts to keep us kids warm in the winter and to give us plenty to eat. (Before she died she gave a beautiful Quilt to her grandson Wesley Arnold.) She was active in church work. She came from a very large family. Her father was a veteran of the civil war. He was a fearless man, a good Christian who said what he meant and meant what he said. He could be trusted in every way. Amanda died Apr 22 1973 in Piggott Ark.

#### PORTRAIT OF A WORKING MAN'S COMPANION

Our mother sang happily in the kitchen. She often sang as she worked. I was to wonder in later years whether she showed her happiness by singing when the crops were good and the family was well clothed and fed or whether this was her usual state of mind and her way of voicing confidence in the Almighty to take care of all emergencies. Always the songs were songs of faith, expression of need, words of exultation. It was a good day when our mother sang as she worked.

Seven children did not bother or burden her particularly for she implicitly believed that each mother should have "her number" of children. The work and worry, the concern for shelter and clothing, plans for their education--all these were problems almost insurmountable to most but she had a faith so remarkable that it never occurred to her to question that it would work out. It would work out if everybody worked at it. Hers was not a blind faith that required Providence to do all of the work.

Before daylight every morning whether winter or summer she was in the kitchen preparing breakfast, making school lunches, planning and assembling the home grown vegetables for dinner. Because nearly all of the ingredients of every meal were home grown and because cooking was done by wood stove, hours were

consumed in the preparation. In addition to this she must get out in the garden and with the help of the older children hoe the vegetables or gather them before the heat of the noonday sun was too great.

Feeding nine mouths three times a day must have been a monstrous job. Breakfast was hearty with ham or sausage, biscuits, and sorghum molasses and butter-- all homemade. Not only did she prepare breakfast but at the same time she was making fried pies, boiling corn on the cob, and putting great slabs of meat in split biscuits for school lunches. There were no school cafeterias. She canned unheard of amounts of fruit from the orchard and vegetables from the garden and then to be sure that the food supply was adequate spent much time preparing and drying apples and peaches. The cellar held turnips, two kinds of potatoes, and sometimes apples. At the barn there were great baskets or tubs of field peas for cooking. These were shelled at night around the fireplace by the whole family.

By nature she was exceedingly outgoing and liked nothing better than to be with people. She had grown up in a big family. She had a big family, but she reached out for more. She had young people and adults in for Sunday dinners, enjoyed all contacts with her neighbors, attended Sunday School and church, had the minister and his family over often, and welcomed members of both her and our father's families. She was genuinely fond of our father's brothers and sisters and seemed as close to them as to her own.

A sensitive, intelligent woman with a great capacity for love, much compassion and understanding, a tendency toward perfectionism, and a desire for further education was inevitably to meet with conflict. Her environment simply could not supply what she wanted for herself and her family. She had headaches. Though she did not connect the illnesses with the struggle in her life, it seems likely they connected. Once the illness passed her sense of humor shone through and she laughed and joked with all who came her way. When the children were gone and the struggle eased, the headaches disappeared. By anybody's standards she went far. Hopefully her set of values and many of the things she reached for will be realized in the lives of those she loved. Dovie Arnold December 1978.

Notes for Thomas Andrew Arnold:

Narrative about Thomas Andrew Arnold family. As told by his son Beamon Edward Arnold. Since he was the oldest child he took on a man's job very young to help support the family. His father was not always in health moved from place to place for his health. This is why the family moved to the mountain country around Harrison in Boone County Ark. His father Benjamin Harrison Arnold b 1858 in Weakley Co Tn died Feb 22 1902 at Harrison Ark. occupation farmer aged 44, after a long illness. My dad Thomas had to take over as he was the oldest of six children and he only got to go thru the second grade in school. Some of the people lived thru very hard times in the Boston Mountains near Harrison Ark. They hunted wild hogs in the winter for meat and sometimes dug roots and collected kinds of tree bark for medicine. Some lived in little log huts. Thomas was always a strong man until the age of seventy. He married Amanda Melvina Edwards b Oct 4 1853 at Piggott Ark mar on Nov 10 1912 at Harrison Ark she died April 22 1973 at Piggott Ark. She was a lot of comfort to him and grandmother. Grandmother Arnold who was Mary Polly Palistine Blake b Aug 9 1857 married c1881 and died Nov 10, 1912 at Harrison Ark. ? "was in bad health and died fairly young." They were married by William McAllister Leon Arnold's grandfather in Everton Ark. TAA as age 28 of Zink and AME was age 21 of Zink. The ceremony was done in a furniture store owned by the Justice of the Peace Mr. George McAlister. George Arnold and his wife Annie were the witnesses. Thomas worked some on the new railroad that was being put through Ark. Dirt was moved by hand and by mules or horses. Rocks were blasted out. Everything was done by hand. There was quite a lot of mining going on so Thomas and Amanda moved to Zink Ark. TAA said that he had a good farm but it was hilly. They belonged to the Methodist Church. Amanda M Edwards was b Aug 9 1884 in Piggott Ark her father came from Tn her mother from Ill. They lived near Bill and Art McAlister close to Everton. The first son was born there (Felix Ben Arnold b May 27 1906 d Dec 17 1976) Little Rock Ark. Zink was a very small town then and is today. The government took the post office out and most of the people are gone. They had only one country store when I visited there in 1976. Thomas cleared land and made a good showing everywhere he lived. He moved to Clay County Ark near Piggott about 1913 and had four children there Zelma b1908, Dovie 1910, Gladys 1912, Beamon Edward 1914, Joel 1916 (died young), Lavern 1917, and Lois b 1921. That was eight children total. World War I came on and my father was called for service but was deferred because he had family. Thomas was never an idle man.

The only book he tried to read was the bible. On Sunday he would read his bible out loud. He loved the church and the local ministers of the gospel that came to our church. Our home was always open to preachers. We had our ups and downs. My father never drank or smoked. Whiskey was sometimes used for medicine only in the home. Once my father slipped while working in the woods and fell under a heavily loaded wagon. My brother got him to the house and got the doctor out who sewed up a bad cut on his head. I was scared. He lay on the porch and that is where the doctor worked on him. (Remember we had no fans or air conditioners then.) It was cooler and they could see better. Teeth were pulled by the family doctor on the porch where he could see better. My father always kept a rifle or shot gun but never used them. He never liked to kill anything, not even for food. He was a good butcher and the boys helped. He could do almost any kind of work but never drove a car. He always did a good job whatever he did. He built several houses alone. He lived to be 90 years old. "I could never express what his good life has meant to me." Beamon Arnold.

Zelma stated that "I know that both parents were intellectually smart and spiritually ripening unto old age. Only their faith in God could have brought them through their many trials and backsets in proving and rearing their family which in old age showed up more tender and strong. They were the hardest working people I ever knew, trying to make an honest living from nothing but poor soil, plus animals bought on credit, and hard long hours of heavy work. Their ambition finally accomplished of putting us thru high school, which they themselves never had the opportunity to do. Only then could they begin to save for themselves. Papa got a night watching job at a nearby saw mill to get his social security credits. Farming was not counted then. After moving to town to educate us he still farmed, ploughed, hauled wood etc. But his highest achievement, not having education or training, was building rent houses out of mostly used lumber and blocks etc., which helped to buy other properties and the rents were their life's savings. Not much but enough to see then thru."

Amanda was a member of Wright's Chapel Methodist Church in Piggott Ark. She was president of the Ladies' Aid Society and Sunday School Superintendent and teacher. She had a deep love for people of all faiths and a strong concern for the welfare of her friends, relatives and family. Her faith was an inspiration to all.

Dovie stated that with her father's papers she had a tattered copy of the minutes of the fifth annual meeting of the state Line Assn of General Baptists held with Little Vine Church Fulton Co Ark Sep 23-25 1898. "Papa always considered himself a General Baptist even though he joined the Methodist Church with Mamma and the older ones of us as we became interested. I suspect the GB was the church of his family. She also stated that the food supply in Papa's family was so low at times that his mother had to dilute the milk with water so that each could have a cupful.

Lavern stated that family legend has it that the family traveled from one hot spring to another and that we are descended from Benedict Arnold and Johnathan Edwards, related to Arnolds at Coring, related to Mckleskies and Braden.

Beamon stated that he heard his dad talk about his aunt Adeline, his cousin John Arnold, his uncle Jim and Elmo and his mothers brother Cola Blake who only shaved his face once in his life and was a big strong man who worked at the Methodist church. The Blakes were Methodist. I remember uncle Jim or James as you have him. Papa played violin music for dances and parties. Papa's mother was a Methodist like her mother. The Arnolds were largely English, the Blakes Irish. FG Ed fought alongside his cousin Mr Spense as a calvary soldier, confederate. One battle was fought just north of Piggott near the MO/Ark line. It is a park now. I think the Blakes lived near there. I have been in the old Methodist church where they attended. The Johnson place farm. Another was the place where Beamon was born was three miles west of Piggott old County Farm Road. Dovie said that she heard papa talk many times about a cousin Parilee and got impression she was older than Papa.

Wesley Arnold stated, "I remember grandmothers wonderful cooking and how she did that on that old oil burning stove. I assume that before that she had a wood burning stove. I remember one hand water pump was right in the kitchen and that we all drank out of a big dipper at times. Grandmother did without most of the things we take for granted today such as: electricity, electric lights, electric mixers, toasters, refrigerators, washers, dryers, disposers, compactors, coffee makers, hair dryers, running water, water heaters, paper towels, air conditioners, redimixed mixes, canned goods, modern prepared foods, packaged easy to make foods such as tang, minute rice, ricearoni, stove top stuffing, powdered mixes, macaroni dinners, frozen foods etc. They had

no freezer or refrigerator. There were no supermarkets. The local store sold mostly dry items such as flour, sugar, crackers, yeast, yard goods from which a woman would have to make the families clothes by hand sewing because most families didn't own even a foot powered sewing machine. There were few restaurants and no fast food places and eating out was rare except when visiting other families. If the family was to survive the winter hundreds of hours had to be spent on preserving food by canning, drying, etc. There were no permanent press fabrics. All washing and ironing were done by hand. The iron had to be heated on the stove or by coals from the fire. There was no running water and they had to make their own soap and the used water had to be carried outside and dumped. In most of past history there were no flush toilets, toilet paper or paper napkins. In the old days if one had to go to the bathroom on a cold winters night one would not even find a bathroom only a big washtub and a bucket. There was usually an outhouse out back which was a real adventure in the cold winters. It was a certainty that one did not linger there especially if someone else had left the door open and you had to brush the snow off of the seat. Also again worst of all no toilet paper most of the time. There weren't even any flashlights. Light at night was by home made candles or oil lamp if the family was prosperous enough to be able to afford oil. A fire had to be lit every morning often without matches and wood had to be cut and stacked near the stove. The morning chores began at daybreak. The animals had to be cared for. There was no social security, welfare or food stamps. Everything was a result of hard work. If you didn't work you didn't survive. If one got sick or hurt there was no telephone or hospital or ambulance. Some one had to walk or ride for miles to find a doctor if there was a doctor at all. Infirm and elderly were cared for within their own family. If the crop failed the family had to somehow do without. Despite all of this it appears that most people were happy and usually healthy, and people helped each other. In some ways life may have been better then. We were not afraid to walk down a street at night then.

#### Portrait of a Working Man Felix Benjamin Arnold's salute to his father

No man ever worked harder than our father. He worked for the same reason that most men sometimes loaf: for enjoyment. He worked while others went fishing. He worked on the Fourth of July and on Christmas, in cold weather and in hot. Whenever the ground was too wet to plow, he fixed a fence or cut and hauled wood. If the rain drove him from the field or from the woods, he fund harness to mend or shoes to half sole. If the bitterest cold forced him indoors to the fire, he shelled corn, fashioned an ax handle or filed a saw. If he ran out of things to do, even for a half-day he became impatient, bored and restless. Work was his hobby, his recreation, his joy, as well as his livelihood. He would sometimes work to utter exhaustion, to the table too tired to eat, and afterwards fall asleep in his chair.

Never did he own fine tools or farm implements, but he took care of those he had, and took pride in doing things well. At planting, he made a straight row; at breaking ground he disdained to cut and cover. No one could make better sorghum, molasses or more cleanly butcher a hog. He was skillful with plow, hoe, shovel, ax and froe, and kept such tools sharp and free of rust. He was scornful of men who left the stumps of trees standing high and jagged; who did things by halves sloppily. He chopped neatly, left low stumps that a wagon or plow could pass over, made tidy brush piles, left no litter. He saved everything that he thought might be useful: nuts bolts, screws, nails, and pieces of wood, metal, rope, wire and leather. His pocket knife was his special pride, be it only a barlow and worth but a quarter.

He never read a book in his life except a little from the Bible. He would read the Good Book aloud to himself, usually on Sunday mornings. He went no farther in school than the second grade, not from lack of intelligence but from lack of opportunity. No conversationalist, he was a courteous listener, and once caught cold standing at his own gate, late at night in winter, waiting for a neighbor to run-down and go home. He always made company welcome but seldom went visiting and never went to town except o business. He once traded a rifle for a phonograph and later bought a second-hand reed-organ for his teen-age children, but he never - in his life- went to a picture show or other public entertainment. He knew no songs, had no stories, remembered no jokes, yet he was sometimes merry, generally cheerful, by nature hopeful and optimistic. He was proud of building his own house including a fireplace which, nothing for looks, would really draw. He was clean of speech and never used alcohol or tobacco, though one bad winter he bought a bottle of whiskey which he kept on the mantle until he used it up by the tablespoonful as a medicine.

He kept a gun but never used it, not so much as to kill a rabbit. He would wring a chicken's neck, if he had to, or castrate a pig; but he once balked at killing a favorite horse with a broken leg, and a neighbor did it for him unbeknownst to the children. Though he was quick to fly-off-the handle, his anger evaporated just as quickly, and he never held a grudge.

There was stubbornness in him but no meanness. He was changeable, impatient, sometimes arbitrary and harsh, but these were moods of passing duration. Not always easy to live with, he was nevertheless tender-hearted, lovable and affectionate. He could be stingy, but he could also give you his last dollar, gladly and freely and insist that you take it. Never did he forget a favor received or leave a debt unpaid. All his life he was humble and simple, possessed of a childlike spirit, a man in whom there was no guile.

Children of Amanda Edwards and Thomas Arnold are:

- 235 i. Felix Benjamin<sup>21</sup> Arnold , born 27 May 1906 in Zink-Harrison Boone Co Ark; died 17 Dec 1975 in Little Rock Ark.

Felix Benjamin Arnold:

Felix Benjamin Arnold born May 27, 1906 in a log house in Coon Holler near Zink, Boone County Ark. At 20 gave up a job at the post office to work his way through college at College of The Ozarks at Clarksville Ark under plans to become a minister. Although never became a minister did organize two churches and served each as its first elected leader. They were the First Unitarian Church of Albuquerque, New Mexico 1949, and the First Unitarian Church of Little Rock. 1950-53. attended or earned degrees from Harvard Divinity School 1931-32; Venderbelilt School of Religion 1946-47; College of the Ozarks; and two from University of Arkansas; one from Peabody College. was last employed as instructor of humanities at the Beebe Branch of Ark State University. 1968-73.

was outgoing and his interest in and concern for family members and others made much difference in many lives. Iped students financially in addition to individual academiclp and counseling, so much so that some returned as adults to express gratitude. Teaching was to him a high calling. once said that what an actor, a singer, or orator does with his audience a good teacher does with his class. His last years were the happiest. One of the last things did was to establish a memorial lecture fund at the University of Ark in Little Rock. truly believed the famous quotation: "I shall pass through this world but once. Any good there that I can show to any human being, let me do it now. Let me not defer or neglect it, for I shall not pass this way again." not only believed it; practiced it. Velma Lou Dovie Arnold.

He was married three times but had no children. In order Dora Macy, Freda Nesbitt, Ruth Ann Braun. died December 17, 1975 in Little Rock Ark and is buried in the Piggott Cemetery, Piggott Arkansas.

**239. Beamon Edward<sup>21</sup> Arnold** (Amanda Melvina<sup>20</sup> Edwards,) (Source: Marriage Certificate.) born 02 Feb 1914 in Piggott Ark, died 14 Feb 1994 in Poplar Bluff Mo. married **(1) Dorothy Jane Stewart** 18 Jul 1942 in San Antonio Tx, daughter of Daniel Stewart and Flossie Shaver. born 13 Jun 1919 in Pontiac MI, died 27 Mar 1982 in Mt Clemens MI. married **(2) Mary Naomi Thompson** 18 Aug 1951, daughter of Tommie Thompson and Robie Wornell. born Apr 1923, died Oct 1995 in Pocahontas Ark.

Beamon Edward Arnold: Beamon Edward Arnold as a lad worked in the fields, and helped on his parents farm. entered the US Army in 1941 saw action in Northern France and Belgium and spent time in England. was in the Infantry and the Normandy Invasion (D-Day) and went to the front every three months. received an honorable discharge in July 1945 after four years service. joined the Ms Willis Christian revival group and helped build tabernacles. This is how he came to S. Lyons Michigan where he met Dorothy. They bought a small house in Center Line MI then a little house on a ten acre farm just west of Pocahontas Ark just west of Highway 62. He worked at the Salee Handle Company. Beamon did mostly general labor work all of his life. The marriage to Dorothy ended and he married Naomi Thompson Wesley stated that his dad was one of the most gentle persons ever knew. Beamon and Naomi adopted a boy, Philip. Beamon did everything could to help Philip and his ailing wife Naomi. The family moved from Rockford Ill to Pocahontas Ark to be with Naomi's aging parents. Beamon was always active in church work even distributing tracks had printed. In retirement did beekeeping and gardening. helped his son Wesley with this family history. stated that family legend had it that his family dated back to when three Arnold brothers came over on a ship from England. They had red mustaches. Wesley has a few red hairs evident if doesn't shave. He stated that the family was English and Irish. On Beamon's mothers side stated that the family came from Illinois and was Dutch. He is buried in Pocahontas Ark.

Dorothy Jane Stewart: In 1918 when she was eighteen her and others were mowed down by a drunk driver as they stood in a safety zone in Detroit. She overcame many medical problems. They husband purchased a little house at 8135 Lillian next to her parents. had two other children James Lemeul b May 24 or 25 1948 who lived nineteen hours died of medullary Paralysis 5 25 48 at Highland Park MI; and Sylvia Ann born Feb 21, 1949 who lived two days died 2 23 49 of ateledosis at Highland park MI. section 37, 200, 3 and a Sylvia Ann Arnold 34985 section 37, 200, 5. Dorothy and Beamon had moved to a ten acre farm in Piggott Arkansas. Dorothy claimed that both the war and religion had changed Beamon. Dorothy was very unhappy. Of course had gone from living at home with parents where she was rather pampered to living a much more demanding life as a farm wife and mother with a man who was rather hardened by the war and by his farm upbringing. said still had internal injuries resulting from being run over by that drunk driver. Marriage problems arose and Dorothy returned with Wesley to her parents home in 1948. Dorothy was a good mother to Wesley although suffered many ailments. Because Beamon did not support or even visit and because she was disabled, they were very poor. Wesley felt bitter against his father for not visiting or helping but later discovered that Dorothy's attorney had sent Beamon a letter that if ever visited Michigan he would be arrested. Still there was a lack contact from Beamon. Dorothy lived at 8165 Lillian in Center Line MI until moved to the Center Line Park Tower for senior citizens. The city offered to buy her house and put her up in the new apartment tower So She thought she would be better off there and have more of a social life. And did like that better than living alone in a house. Not knowing much about real estate accepted the city's offer even though only got perhaps only a quarter of the value of her property's value. enjoyed playing the clarinet, accordion, organ and hrr famous Ocarina. (An instrument that sounds like a flute and looks like a sweet potato. Shr could sit on her third floor balcony and watch parades on Van Dyke. After a hospital stay was having difficulty getting up from sitting position and decided wanted to go into Nursing Home. I suspect looking back on things that may have contracted an illness from blood transfusions she received there. Wesley was unaware of this at the time. Wesley suggested enhancements to her apartment. was told by Dorothy's doctor, and nurse that should go into a nursing home. argued to the contrary because could still do most everything but was out voted and Dorothy insisted. Dorothy went into Clintonview nursing home. We took her out nearly every Sunday. But she lasted only six months died at almost three months short of age 63. Her son stated that she was a good mother and a good person. had a nice personality. her hobbies were many including playing Clarinet, accordion, mandolin, organ, collecting salt and pepper shakers and owls, crocheting, spinning wool from the rabbits we raised, making fudge, chili sauce, ketchup, sewing, and listening to old records. She is buried at Forest Lawn Cemetery in Detroit MI.

He married **Margaret Elizabeth Schepke** ) 19-- in Center Line MI, daughter of John Schepke and Beatrice Claeys. She was born 194- in Mi. Wesley was raised by his mother and grandfather Stewart. The family was very poor as his father did not help at all with support or ever visit. Wesley was active in scouting, was a scoutmaster and spent four years in the army. He was a volunteer fireman and was active in the Goodfellows. He worked his way thru college while supporting his wife and daughter receiving three college degrees. He had careers as a professional photographer, as a social worker for the Red Cross, and as an adult education teacher, a teacher of software programs for CompUSA a Nation wide Computer store. And became a College Professor. He was a good and caring teacher. He helped his college students learn useful and practical things and helped them get good grades. He compiled and shared thousands of Scholarships to help his and other students.

But perhaps his greatest achievements were the books he wrote that preserved history and provided answers to problems. He did graduate research into the world language problem. The purpose was to find information that would help save human lives. The research he did had the potential of saving thousands of lives and also saving taxpayers millions of dollars. He was also a loving caring father and grandfather who tried to help them as much as he could.

Wes uncovered research by others and also verified that research by his own graduate university work that indicated the following: There is much non understanding and misunderstanding when people try to communicate between the over 1000 languages currently being used in the world. Many lives have been lost in emergencies, and in aircraft and ship accidents, and from medical problems due to language misunderstanding or non communication due lack of ability to understand another language and mistrust. There is an international vocabulary of international words with a grammar that can be learned in one forth the time of any other language in the world because it uses simple prefixes and suffixes to build words. It is not meant to replace anyone's language but rather to provide a quick, time efficient way to communicate between languages. If a person learned 300-999 international word roots and spent only one hour studying the scientifically designed grammar of Esperanto which fits on just one sheet of paper, they would be able to understand ninety to ninety nine percent of all basic human communication with any other person who had done the same. The rest could be easily looked up in a pocket dictionary. (Wes even wrote the dictionary.) To test this research and prove it, Wes went to San Francisco State University, learned Esperanto in three weeks and was able to communicate with others around the world within a month. He later received over 700 letters from around the world

successfully using this basic vocabulary to communicate with others from over eighty countries most of whom did not understand English. (About ten percent of all persons understand English or will have the time to learn it in their lifetime. One in seven Americans do not understand English.) His book "Important International Language Research with References," "International Vocabulary," and "Esperanto the International Language," have received orders from around the world.

Over several years he compiled a family history with over 3000 records and narratives. Many relatives wanted copies so he made copies and gave them away. He made it available free to family members. What is good is that the history of many families is now preserved for future generations. There is more than just family records. It tells how people lived at different times without all of our modern appliances and improvements. This hopefully may also give perspective to future generations.

In doing the above history. He discovered in his grandfather's attic some diaries written by a great Uncle Daniel J. Stewart. These old faded pages told about everyday life back in the 1800s, listing births, deaths, cause of death, daily activities, the weather etc. He researched the History then carefully copied the fragile pages. The resulting book was named Diary of an American Farmer had notes, maps and records that The Branch County clerk does not have. So it is a major first hand source for historical information about Michigan families. The book ended up being over 1000 pages long. He donated copies of this book to several libraries so that the information in it will be preserved for future generations. It cost him well over \$1000 and took several months of his life to do. He also published these diaries as Diaries of An American Farmer. He made them free to all.

He researched and wrote "Amplenomics Ample For All Can Be Created Workable Solutions To The Problems Of Our Time." There are many problems in the world. He researched the best solutions for them and put it down on paper. The book also tried to show how Ample for all can be created. For example There are enough materials in the world to make it possible to create enough shoes (and all other needs) for every human. His purpose was not money but rather to share ideas on how to help create a better world for all of us.

He wrote 150 books, 136 on The history of Center Line and Warren and published them free to all. He donated thousands of historical pictures to libraries. Not for money but rather so historical information could be preserved for future generations. **He became known as the humble historian because he spent thousands of hours** recording our local history and put it up on a free website. [macombhistory.us](http://macombhistory.us) and [dogoodforall.today](http://dogoodforall.today) Also on this site **he helped hundreds of students get college scholarships and helped people get better jobs.** Did volunteer work in aiding the homeless. Was a witness for homeland security against a local terrorist cell at age 70. Encouraged people to help each other and help preserve our history, freedom and American Way of Life.

He also Installed solar collectors. Now gets free electricity from our free sun. Best thing is feels it is nice to be independent does not have to worry about power outages or rate increases. He stated 100 watt solar panels can be had for around \$100, get at least 2 hook up to a battery add a controller \$30. Then you have free power. If you use the new 8 watt LED bulbs they put out light that equals a 60 watt old bulb. You can run 7 of the watt bulbs for less power than 1 of the old ones. That is all of the lighting you need at night. You can also run your TV and laptop computers off of this set up with free dependable electricity. Use rain barrels for free water. Have an emergency back up heat via wood stove which can be hooked up in case gas goes out. Independence and freedom are great.

He was working on "Bits of Wisdom". He also promoted the Universal Declaration of Human Rights. His intention was to help stop the suffering on our Spaceship Earth. We cannot create a better world without a decent code of human conduct, and recognition of human rights. He still believes that in the future all humans should be able to understand other humans especially during emergencies. If children around the world could learn to use 300-999 basic international words for use between languages, within a generation much human suffering and misery could be prevented and a better safer world created.

Compiled Modern Languages Compared and other language books The Easiest Language, International Vocabulary to increase understanding and as a result save lives. All published for free to all.

He researched and shared lessons for the world on Wiki University. Solar power, Easiest language and more. He also did humanitarian work. Also published useful memes on Face book.

He placed the following letter in his will to be given to his grandchildren.

"There is a possibility that I will not be alive to explain some things to you so I am writing you this letter for your knowledge. Most important no matter what ever happens, I will always love you and will be concerned with your welfare. I will always be your grandfather and your friend. As you go through life you will find that true friends are rare. After I am dead my wish is that I could be your guardian angel to help you in times of need but I don't know if this is even possible.

We all make mistakes and I have made many. What is important is to learn from them. As long as you are alive there is hope. Sometimes we make bad decisions because we have not taken the time to think. You are blessed with a good brain; use it and take care of it. If you ever doubt that look out in the world and you will see many others that are not blessed with your intelligence, abilities and health. And many do not even use good common sense. It is best to find and keep/maintain good friends with good judgment. Your choice of friends can make you or break you, particularly when you are young. Bad friends are like a contagious terminal disease.

Do not fall into the trap of negative thinking. If you only allow your brain to think negative thoughts you can destroy yourself and others. Worry is a waste of time and energy. When you have a problem first try to reason out what the real problem is. Define the real problem. When one is depressed one tends to find many things that look like big problems but in reality when you look back later on you will find that most of them were just little stumbling blocks that can be resolved without too much work. You can work your way out of most situations one step at a time. Sometimes it is good to get a little help. If you have good friends sometimes they can help. The crisis center can often give references to resources you are unaware of. My grandfather went thru the great depression when they didn't even have enough food to eat. And there were no food stamps then, or welfare. My father was in a war and saw hundreds around him die. He carried a New Testament that saved his life emotionally and once when it stopped a bullet. I have found myself down in seemingly hopeless situations many times but I said a prayer and used my wits and worked my way out. Depression can also be the result of a chemical imbalance. If it keeps on get a medical exam and perhaps psychological help. I am not saying you have depression. But many people suffer for years with a chemical imbalance that could be cured.

When in doubt ask the infinite intelligence about it (pray). If possible pray for an answer and sleep overnight. This lets the subconscious mind work on it. Often serious problems take days or weeks to resolve. Keep seeking solutions. Never give up! Winners don't quit and quitters don't win. Seek and you will find. It often takes some work and planning.

Take time to think and plan a little each day. If you fail to plan you plan to fail. Wisdom stands the test of time. The best thing to do may be to do what is best in the long run rather than the emotion of the moment. Set reasonable goals. Decide what you want to do. Make a plan to do it. Determine if it is right, just and fair, then go to work step by step. The longest journey starts with but a single step.

Following emotions can get us into trouble. Emotions can blind your reasoning. I am not saying one should be cold and uncaring but emotions of anger, fear, hurt, depression and so on are controlled by your thoughts to a large extent. You are what you think. You can control your thoughts. You should control your thoughts. You must control your thoughts. If you want to be happy, think happy thoughts. We all make our own happiness to a large degree. I have been very poor for long times and yet was happy. Music helps a lot of people be happy. Helping to make a better world made me very happy. If you want to be a success, think success. Strive to be the captain of your ship always in control of yourself and your reason. Be a thinking intelligent person rather than an ignorant unthinking fool. (We all do stupid things sometimes.)

Always do what is right. Make sure you are right then go ahead. Be prepared, be persistent, be determined, Be Enthusiastic!!! Think. Ask questions. Ask what, why and how. Examine your life. Know yourself.

May I recommend the following books to you: The Boy Scout Handbook; How to Make Friends and Influence People by Dale Carnegie; Think and Grow Rich by Napoleon Hill; As a man thinketh by James Allen; Johnathan Livingston Seagull; Your Family History by Wesley E. Arnold also by the same author Diary of an American Farmer; Amplenomics Ample For All Can Be Created Workable Solutions To The Problems

Of Our Time; Esperanto The International Language; Bits of Wisdom. The New Testament- 1 John 3, 1 John 4, 1 Corinthians 13 & 14, Matthew, Mark, Luke and John. Socrates, Jesus and Ben Franklin among many others had many good ideas. Reading is a good habit.

Here are Franklin's Maxims:

Silence. Speak only what will benefit others or yourself.

Order. Let all things have their places. Let each part of your business have its time.

Resolution. Resolve to perform what you ought. Perform without fail what you resolve.

Frugality. Make no expense but to do good to others or yourself; that is; waste nothing.

Industry. Louse no time. Be always employed in something useful. Cut off all unnecessary actions.

Cleanliness. Tolerate no uncleanness in body, clothes or habitation.

Tranquillity. Be not disturbed at accidents, common or unavoidable, or at trifles.

Example. Imitate Jesus and Socrates. Practice Love and Kindness and ask questions.

I would add look for opportunities. I wish you happiness. Be careful. Wesley Edward Arnold He donated his organs to help save lives and will be cremated then buried at Forest lawn Cemetery in Detroit MI. His grave stone reads "Wesley Edward Arnold 1943 GOD IS LOVE. PRACTICE LOVE AND KINDNESS TO ALL. AMPLE FOR ALL CAN BE CREATED. WISDOM STANDS THE TEST OF TIME. STOP THE SUFFERING AND DYING ON SPACESHIP EARTH. BE CAREFUL. To find it go in main road, right at Ennis Crypt, left around Bishof Crypt, take next left (section 40) park when you see Castilonie stone at right. Walk towards Castolonie look down.

The Ellis family and others gave lots to the School District to build the Ellis School in 1925.

I did not find any Ellis family living in Warren Township at that time. But there were several in the area.

A few old timers mentioned the name of George Ellis but so far I have not seen any actual references other than to the one above.

#### Emmons

Major General Carolus EMMONS 1 Sex: M

Birth: in England

From Riley Smith Emmons' book:

The name Emmons is supposed to be of Anglo-Saxon origin from the word "eam" meaning uncle. It is variously spelled Emun, Emans, Emins, Emmens, Ammens, Emmans, Emmin and Emmon. These variations are found both in English history and in the United States. The first known reference to this family was mention made of the marriage of Nicholas Emun to Ceclia Finch at St. Albans in 1559. Later the name of Robert Emans is found in church records at Thorington, England. A John Emins served as church warden at Fench lane in Cornhill.

The family of Emmons was well distributed through Mass., Conn., VT, NH, PA, and NY by the mid-1700s.

Carolus Emmons was knighted about 1685 for Bravery and being Victorious in Five Battles in the Field of Blood. This is found on the Emmons Crest. (David Leach Emmons Feb.2001)

To: wesleyarnold@yahoo.com Subject: Center Line/Warren Township History Date: Mon, 12 Feb 2007

13:09:57 -0500 Hi Wesley,

I'm a genealogist and member of the Shelby Township Historical Committee. Several of my ancestors were early settlers of Warren Township and I can give you interesting information from my records.

The mother of Hieronymus Engelman and my great-great-grandmother Franziska Anselm Baumgartner were sisters born in Rust/Baden, Germany. Franziska and Wendelin Baumgartner came to Detroit in 1834. Wendelin was born in Oberbergen/Baden, Germany. They are buried in the Grotto Cemetery.

I have the book of family records from Rust, Germany that I purchased at the City Hall there in 1970. Following are the records taken from the book for the Jakob Engelman family. Please note that his date of birth is different than on his grave stone in St. Clement Cemetery.

Jakob Engelman, born 23 July 1809 and Charitas Anselm, born 28 July 1808 were married 25 June 1841. They had two children: Eduard born 20 April 1842 and Hieronymus born 28 September 1844. The family immigrated to America on 18 May 1847.

My great-great-grandparents Franz Josef and Johanna Priemer (often misspelled) came to Michigan in 1850 with sons Franz and Eugen. Sons Lucas and Josef came to Michigan in 1851 and the last son Nikolaus, my great-grandfather, came in 1852. On August 22, 1851, Franz Josef and Johanna purchased a 40 acre farm on

the northwest corner of Van Dyke and 11 ½ Mile Road from the State of Michigan for \$160. Their farm is on the 1859 & 1875 Warren Township maps. As you know that became the location for the Tank Plant.

Johanna Priemer died September 5, 1856 and is buried in St. Clement Cemetery. Franz Josef remarried Gertrud Kratz. They are buried in the Grotto Cemetery but their grave stones have disappeared. So far I haven't been able to get any help to locate the stones.

The Priemer family owned other property in Warren Township and my father was raised on a farm at the corner of 11 Mile Road and Bunert Road. His step-father Joseph Morian sold the farm to developers in the early 1960s.
